TRAVEL SCRIPTS & AI PROMPTS

The ActorTonyB Travel Creator Pack

Ten ready to shoot short video scripts, and twelve copy and paste AI prompts for planning trips, hunting deals, building itineraries, and writing captions.

TakeOff AI by ActorTonyB Travel · travelwithactortonyb.com

How to use this pack

Part one is the scripts. Every script gives you the format, the hook (your first line, word for word), the shot list in order, the lines to say, a caption that is ready to post, and one filming tip. Film them solo with your phone; that is how they are written. Swap in your city, your hotel, your dish, and shoot.

Part two is the prompts. Copy one into TakeOff AI or any AI chat, fill in the parts in brackets, and send. Each prompt tells the AI what job to do, what facts to work from, what shape to answer in, and one honesty rule: if it does not know a price or a fact, it has to say so instead of guessing.

Reel Script From My Notes

Hashtags That Fit

Part 1 · The Scripts

1. Airport Arrival

Vertical short, 30 to 45 seconds

The hook. “We just landed, and I am already smiling.”

Shot list.

1. Selfie walk off the plane or out of the gate, carry on in hand
2. Quick pan of the airport sign with the city name
3. Walking shot toward baggage or ground transport signs
4. Outside the airport, first look at the sky and street
5. Close selfie to finish

Say it like this.

> “We just landed in [CITY], and I am already smiling.”
>
> “Flight was smooth, bags are with me, and we are officially here.”
>
> “First mission is simple, get to the hotel, drop the bags, and get outside.”
>
> “I will show you what we find first, because the first hour always tells you something real about a place.”
>
> “Come on, let us go see it.”

Caption. Just landed in [CITY] and the trip starts right now. First stop, hotel. Second stop, everywhere. #TravelWithMe #AirportArrival #TravellingWithActorTonyB

Filming tip. Film the city name sign as soon as you see it, it proves where you are and makes a perfect cover frame.

---

2. Hotel Room Tour

Vertical short, 45 to 60 seconds

The hook. “Room tour before the bags explode, because after that it is too late.”

Shot list.

1. Door opening from the hallway, key tap if you have one
2. Slow walk in, full room pan left to right
3. Bed, desk, and window in one pass
4. Bathroom quick look, mirror and shower
5. Window view out to the city or water
6. Selfie by the window to close

Say it like this.

> “Room tour before the bags explode, because after that it is too late.”
>
> “We are at [HOTEL NAME] in [CITY], and this is what you actually get.”

“Bed looks solid, room is clean, and there is space to move around.”

“Bathroom is simple and it works, and that view is the real win here.”

“I would stay here again, and I will tell you if that changes by checkout.”

Caption. Honest room tour at [HOTEL NAME] in [CITY], before I mess it up. Clean, quiet, and that view sold me. #HotelTour #TravelReview #WhereIStay

Filming tip. Open all the curtains before you hit record, natural light makes a small room look twice as good on a phone.

---

3. Hidden Gem

Vertical short, 45 to 60 seconds

The hook. “The guidebooks skipped this place, and they were wrong.”

Shot list.

1. Street approach, show the sign or entrance most people walk past
2. Selfie at the entrance, point it out behind you
3. Inside or close detail shot, what makes it special
4. One wide shot so people can feel the place
5. Selfie close with your honest take

Say it like this.

“The guidebooks skipped this place, and they were wrong.”

“This is [PLACE NAME] in [CITY], and most visitors never make it here.”

“It is quiet, it is local, and it feels like the real side of this city.”

“You do not need a tour or a ticket line, you just need to show up.”

“Save this one for your trip, you will thank yourself later.”

Caption. Hidden gem in [CITY] that nobody told me about. [PLACE NAME] is quiet, local, and worth the walk. Save this for your trip. #HiddenGem #LocalTravel #OffTheMap

Filming tip. Film a few seconds with no talking, just the sound of the place, and let that play under your closing line.

---

4. Food Spot

Vertical short, 30 to 45 seconds

The hook. “One dish, one verdict, no long story.”

Shot list.

1. Restaurant sign or storefront
2. Menu or counter where you ordered
3. Close up of the dish when it lands
4. First bite on camera

5. Selfie verdict outside or at the table

Say it like this.

"One dish, one verdict, no long story."

"I am at [RESTAURANT NAME] in [CITY] for the [DISH NAME]."

"It looks right, it smells right, now let us see if it tastes right."

"That first bite tells you everything, and this one delivers."

"Worth it. If you come here, order this exact dish."

Caption. Stopped at [RESTAURANT NAME] in [CITY] for the [DISH NAME]. Verdict is in, worth it. #FoodTravel #EatLocal #TravelEats

Filming tip. Get the close up of the dish before you touch it, steam and fresh detail sell the shot better than the bite does.

---

5. Travel Hack

Vertical short, 30 to 40 seconds

The hook. "Travel problem, solved in ten seconds."

Shot list.

1. Selfie open, name the problem plain
2. Show the problem up close, dead phone, messy bag, long line, whatever it is
3. Show the fix step by step with your hands
4. Show the result working
5. Selfie close with the takeaway

Say it like this.

"Travel problem, solved in ten seconds."

"Here is the problem, [DESCRIBE THE PROBLEM IN PLAIN WORDS]."

"Here is the fix, [DESCRIBE THE FIX STEP BY STEP]."

"That is it, no app to buy and no gear you do not already have."

"Try it on your next trip and save yourself the headache."

Caption. Simple travel fix that actually works. [SHORT NAME FOR THE HACK] saved me time and stress today. Try it on your next trip. #TravelHack #TravelTips #PackSmart

Filming tip. Show the fix with your hands, not just your words, people save videos they can copy without rewinding.

---

6. Pack With Me

Vertical short, 45 to 60 seconds

The hook. "Carry on only, and yes, it all fits."

Shot list.

1. Empty carry on open on the bed
2. Outfits laid out flat, count them out loud
3. Rolling or folding one outfit, hands in frame
4. Toiletries bag and shoes going in last
5. Zipping the bag closed
6. Lifting the bag with one hand to prove it works

Say it like this.

"Pack with me, carry on only, and yes, it all fits."

"I am going to [CITY] for [NUMBER] days, and I am not checking a bag."

"Rule one, outfits that mix together, so every top works with every bottom."

"Shoes I am wearing on the plane, toiletries stay small, and nothing comes just in case."

"Zipped, lifted, done. This is how you move light and move fast."

Caption. Pack with me for [CITY], carry on only for [NUMBER] days. Light bag, no baggage claim, straight out the door. #PackWithMe #CarryOnOnly #TravelLight

Filming tip. Prop the phone above the bed looking down, it is the easiest solo angle and shows the whole pack in one frame.

---

7. Trip Recap

Vertical short, 45 to 60 seconds

The hook. "The whole trip, in under a minute, let us go."

Shot list.

1. Selfie open at your favorite spot from the trip
2. Clip or photo of day one highlight
3. Clip or photo of the best food moment
4. Clip or photo of the surprise moment you did not plan
5. Sunset or skyline or airport goodbye shot
6. Selfie close with the final word

Say it like this.

"The whole trip, in under a minute, let us go."

"[CITY] gave us good weather, good people, and one day that did not go to plan, and that day might be my favorite story."

"Best bite was at [PLACE NAME], best view was [LOCATION], and the hidden gem I am still thinking about is [PLACE NAME]."

"Would I come back, yes, and I would stay longer next time."

"Tell me your favorite spot here, I am building the list for round two."

Caption. Full recap from [CITY]. The hits, the surprise, and the one spot I would go back for tomorrow. #TripRecap #TravelDiary #CityGuide

Filming tip. Use your own clips from the trip in order, even five second pieces, your real footage beats any stock shot.

---

8. Traveling With Your Dog

Vertical short, 45 to 60 seconds

The hook. “Flying with a small dog is doable, here is how we actually do it.”

Shot list.

1. Selfie with your dog at home or at the airport entrance
2. Carrier on the floor, dog calm inside, airline approved size in view
3. Check in counter or gate area, carrier at your feet
4. Short clip of water break and a quick walk before boarding
5. On the plane, carrier under the seat in front of you
6. Arrival selfie outside the airport, dog out and happy

Say it like this.

> “Flying with a small dog is doable, here is how we actually do it.”
>
> “This is Nala, she travels in her carrier, and the carrier goes under the seat in front of me.”
>
> “Before we board, we walk, we get water, and we keep it calm and boring, boring is good at the airport.”
>
> “Book the pet spot with the airline early, bring the health papers they ask for, and check the rules for your airline before you go, because every airline is a little different.”
>
> “She settles, she sleeps, and we land together. That is the whole goal.”

Caption. Travelling with Nala, airport edition. Carrier under the seat, walk and water before we board, calm the whole way. Small dog, big trips. #TravelDog #FlyingWithDogs #TravellingWithActorTonyBAndNala

Filming tip. Film the carrier under the seat once you are settled, it answers the question every dog owner asks and it builds trust fast.

---

9. Deal Alert

Vertical short, 30 to 45 seconds

The hook. “Stop scrolling, this deal is worth a look today.”

Shot list.

1. Selfie open, urgent but calm
2. Phone screen or laptop showing the route or hotel, no payment details in frame
3. Calendar or dates on screen if the deal is date specific
4. Selfie explaining who this deal fits
5. Selfie close with the deadline or next step

Say it like this.

“Stop scrolling, this deal is worth a look today.”

“I found [FLIGHT OR HOTEL DEAL IN PLAIN WORDS] for [CITY OR ROUTE], for travel around [DATES OR SEASON].”

“What makes it a deal is the timing and the flexibility, not just the number on the screen.”

“Check the baggage rules, the change rules, and the total price before you pay, always read the full total.”

“If the dates fit your life, grab it, deals like this do not sit around.”

Caption. Deal alert for [CITY]. Found a fare worth checking for [DATES OR SEASON]. Read the full total and the change rules before you book. #TravelDeal #FlightDeal #DealAlert

Filming tip. Never show payment cards, confirmation codes, or your home address on screen, zoom in on the route and dates only.

---

10. First 24 Hours

Vertical short, 45 to 60 seconds

The hook. “First 24 hours in a new city, here is exactly what I do.”

Shot list.

1. Selfie outside the hotel, morning light
2. Walking the block around the hotel, learn the neighborhood
3. Coffee or breakfast spot close to base
4. One easy landmark or neighborhood walk, no heavy schedule
5. Grocery or pharmacy stop for water and basics
6. Evening selfie back at the hotel with the day one take

Say it like this.

“First 24 hours in a new city, here is exactly what I do.”

“I do not plan a big tour on day one, I learn the block, find coffee, and get my bearings.”

“Walk first, ride later, you see more and you stop feeling like a stranger by lunch.”

“Get water, get basics, get an early night if the time changed, and save your energy for day two.”

“Day one is for settling in, the real trip starts tomorrow morning.”

Caption. My first 24 hours in [CITY]. Walk the block, find the coffee, skip the big tour, and settle in right. Day two is where it gets good. #FirstDay #TravelTips #NewCity

Filming tip. Film little pieces all day and cut them together at night in the hotel, it feels real because it is real.

Part 2 · The AI Prompts

Copy, fill the brackets, send. The brackets are the only part you have to think about, and thinking about your real trip facts is the whole game.

1. Plan My Whole Trip

For planning a full trip from scratch, paste into TakeOff AI or your AI chat

```
Act as an experienced travel planner who gives straight, practical advice. Plan a whole trip for me using only the facts I give you here. Destination is [CITY OR COUNTRY], travel dates or month are [DATES OR MONTH], trip length is [NUMBER OF DAYS], travelers are [WHO IS GOING, INCLUDE AGES OF KIDS OR DOG IF APPLICABLE], budget range for the whole trip is [BUDGET OR SAY FLEXIBLE], travel style is [RELAXED, PACKED, FOOD FOCUSED, FAMILY, SOLO, OR YOUR OWN WORDS], and I must not miss [MUST SEE OR MUST DO]. Return the plan in this shape, one, best area to stay and why in plain words, two, a simple day by day outline, three, how to get around, four, what to book early and what can wait, and five, one honest warning about cost, crowds, weather, or timing. Guardrail, if you do not know a current price, a schedule, or whether a place is still open, say you do not know instead of guessing, and tell me where to verify it.
```

2. Build It Day by Day

For turning a destination and dates into a daily plan, paste into TakeOff AI or your AI chat

```
Act as a day by day itinerary builder. I am going to [DESTINATION] from [START DATE] to [END DATE], staying in [NEIGHBORHOOD OR HOTEL AREA], traveling as [SOLO, COUPLE, FAMILY, GROUP, OR WITH MY DOG]. My pace is [SLOW, BALANCED, OR SEE IT ALL], my interests are [LIST 3 TO 5 INTERESTS], and my off limits are [ANYTHING YOU WANT TO AVOID]. Build each day with a morning, afternoon, and evening block, keep travel time between stops realistic, group nearby places on the same day, and leave one free afternoon with nothing planned. End with a short list of what to reserve ahead of time. Guardrail, do not invent opening hours, ticket prices, or travel times, if you are unsure say so and mark it as check before you go.
```

3. Two Ways to Do It

For seeing a budget version and a comfort version of the same trip side by side, paste into TakeOff AI or your AI chat

```
Act as an honest travel planner who respects both money and comfort. Take this one trip and build it two ways. Trip facts, destination is [DESTINATION], dates are [DATES], length is [NUMBER OF NIGHTS], travelers are [WHO IS GOING]. First build the Budget Way, smart savings on stay, food, and transport with no miserable choices. Then build the Comfort Way, easier logistics, better location, and one or two upgrades that are actually worth paying for. Use the same days and the same must see list for both, which is [MUST SEE LIST]. Return it as two clear sections with a final line that says where the extra money in the Comfort Way actually helps and where it does not. Guardrail, do not make up prices to fill the table, use price ranges only when you state they are estimates, and say unknown when you do not know.
```

4. Deal Check a Flight

For an honest check on a fare you already found, paste into TakeOff AI or your AI chat

```
Act as a straight talking flight deal checker. I found this fare and I want to know if it is really a deal. Airline is [AIRLINE], route is [FROM CITY TO CITY, INCLUDE STOPS], dates and times are [DATES AND TIMES], total price shown is [TOTAL PRICE YOU SEE], baggage included is [WHAT THE FARE INCLUDES], and change or refund rules shown are [RULES OR SAY NOT SHOWN]. Check it in this order, one, is the total price the real total or are bags and seats extra, two, are the layovers and arrival times workable for a real person, three, what are the risks in the fine print, and four, your verdict in one line, grab it, watch it, or skip it, with the reason. Guardrail, you cannot see live prices unless I paste them, so do not claim this is the lowest price anywhere, judge only the fare I gave you.
```

5. Hunt the Hotel Deal

For finding the smartest area and hotel style for your money, paste into TakeOff AI or your AI chat

```
Act as a hotel deal hunter who cares about location more than lobby photos. I need a hotel in [CITY] for [DATES], [NUMBER OF NIGHTS] nights, for [WHO IS STAYING], with a nightly budget of [BUDGET OR SAY GIVE ME GOOD, BETTER, BEST]. My priorities are [QUIET, WALKABLE, NEAR TRANSIT, NEAR THE BEACH, PET FRIENDLY, FREE PARKING, OR YOUR OWN LIST]. Tell me, one, the two or three best neighborhoods for my priorities and why, two, what type of stay gives the best value there, hotel, apartment style, or small local place, three, what fees and traps to watch for in that city, like resort fees, parking, or late check in rules, and four, the exact search filters I should use when I book. Guardrail, do not invent hotel prices or claim a specific property has availability, give me the strategy and the areas, and mark anything time sensitive as verify when booking.
```

6. Cheaper Dates Finder

For finding cheaper or smarter dates for a trip you can flex, paste into TakeOff AI or your AI chat

```
Act as a flexible dates travel advisor. I want to go to [DESTINATION] for about [NUMBER OF NIGHTS] nights, and I can travel anytime in [MONTH OR DATE RANGE]. I am flying from [HOME AIRPORT OR CITY], and my hard limits are [DATES YOU CANNOT TRAVEL, WORK OR FAMILY LIMITS]. Explain, one, which parts of my window are likely high season, shoulder season, and low season there and what that means for weather and crowds, two, which days of the week usually work better for flying in and out, three, any holidays or big events in that window that could raise prices or close things, and four, your recommended first choice dates and a backup set. Return it as a short ranked list with plain reasons. Guardrail, do not promise a specific fare on a specific date, tell me the pattern and how to check the live price myself.
```

7. One Perfect Day

For building one great day in a city with no wasted moves, paste into TakeOff AI or your AI chat

```
Act as a local friend who knows how to pace a perfect day. Build one perfect day in [CITY OR NEIGHBORHOOD] for [WHO IS GOING]. Start time is [START TIME], end time is [END TIME], energy level is [EASY, FULL, OR IN BETWEEN], interests are [INTERESTS], food style is [FOOD PREFERENCES OR BUDGET], and getting around by [WALKING, TRANSIT, CAR, OR MIX]. Build the day in order with rough times, start with breakfast, add one main sight, one local moment tourists miss, a real lunch stop type, a rest break built in, and an evening finish with a view or a neighborhood walk. Keep the route in one direction so I am not crossing the city all day. Guardrail, do not invent restaurant names, opening hours, or ticket prices if you do not know them, describe the type of place and the area instead, and flag what to verify.
```

8. Layover Rescue

For turning a long layover into a safe mini trip, paste into TakeOff AI or your AI chat

```
Act as a careful layover planner, honest about time and risk. I have a layover in [AIRPORT AND CITY] on [DATE], landing at [LANDING TIME] and departing at [DEPARTURE TIME], on [SAME TICKET OR SEPARATE TICKETS], with bags [CHECKED THROUGH OR I HAVE THEM WITH ME]. Tell me, one, my real usable time outside the airport after arrival steps and being back early for departure, in plain hours, two, if leaving the airport is wise or not wise for this layover, and why, three, if it is wise, one simple mini trip plan close to the airport or one easy transit ride away, with a hard turn back time, and four, if it is not wise, the best plan inside the airport for food, rest, and work. Guardrail, do not guess current transit times, security lines, or entry rules, state what to check on the airport and transit sites before I decide.
```

9. Rainy Day Rewrite

For saving a day when weather kills the outdoor plan, paste into TakeOff AI or your AI chat

```
Act as a calm trip fixer. Weather just killed my plan for today in [CITY]. My original plan was [PASTE YOUR ORIGINAL DAY PLAN OR LIST IT]. I am traveling as [WHO IS GOING], staying in [AREA], I have [CAR, TRANSIT, OR WALKING ONLY], and my energy today is [TIRED, STILL WANT A FULL DAY, OR IN BETWEEN]. Rewrite the day with indoor and covered options that still feel like this city, not generic filler. Give me a morning, afternoon, and evening version, keep the route simple, include one good food stop idea by type and area, and save one piece of the original plan if any part can still work in a break in the weather. End with what to move to tomorrow. Guardrail, do not invent museum hours, ticket availability, or closures, mark anything I need to check before leaving the hotel.
```

10. Caption This Moment

For a ready to post caption from one photo or moment, paste into TakeOff AI or your AI chat with your photo description

```
Act as a caption writer in a warm, straight talking voice with no hype. Here is my moment, location is [LOCATION], what is happening is [DESCRIBE THE PHOTO OR MOMENT IN ONE OR TWO LINES], who is in it is [WHO IS IN IT, INCLUDE YOUR DOG IF APPLICABLE], and the feeling is [FEELING IN YOUR OWN WORDS]. Write me three caption options, one short and clean for a photo post, one with a little story in two or three lines, and one that asks my followers one simple question they can actually answer. Keep the words plain and real, like a person talking, no sales talk and no overused travel quotes. Add a small set of relevant hashtags at the end of each option. Guardrail, do not invent facts about the place that I did not give you.
```

11. Reel Script From My Notes

For turning rough trip notes into a script you can shoot solo on your phone, paste into TakeOff AI or your AI chat

```
Act as a short video script writer for a solo creator filming on a phone. Turn my rough notes into a shootable script. My notes are, [PASTE YOUR ROUGH TRIP NOTES HERE]. The video is about [TOPIC], the place is [LOCATION], the length is [30 SECONDS, 45 SECONDS, OR 60 SECONDS], and the tone is warm, straight talking, and plain spoken. Return the script in this shape, one, the hook as the exact first line I say, two, a shot list of 4 to 6 simple solo shots in order, three, the word for word lines I say to camera, short and easy to perform, and four, a ready caption. No fancy camera moves, no drone shots, nothing that needs a second person to film. Guardrail, use only facts from my notes, do not add prices, names, or claims I did not give you, and mark any gap as a blank for me to fill.
```

12. Hashtags That Fit

For hashtags that match the actual post instead of generic tags, paste into TakeOff AI or your AI chat

```
Act as a social media helper who picks hashtags that actually fit the post. My post is about [TOPIC], the location is [CITY AND COUNTRY OR STATE], the format is [PHOTO, REEL, ROOM TOUR, FOOD POST, DEAL POST, OR DOG TRAVEL POST], and my series or brand tags I always want considered are [YOUR REGULAR TAGS, FOR EXAMPLE TRAVELLING WITH ACTORTONYB AND NALA, OR SAY NONE]. Give me, one, a set of 8 to 12 hashtags for this exact post, mixing location tags, topic tags, and community tags real travelers use, two, a shorter set of 5 for when I want it clean, and three, a short list of tags to avoid for this post and why, like tags that are too broad or off topic. Keep it honest and specific to this post. Guardrail, do not promise reach or growth numbers, and do not add location tags for places that are not in my post.
```

Go make something

One script a trip is enough to start. Post the trip you are already taking, learn the camera as you go, and let the prompts do the planning heavy lifting. That is the whole system: travel, film a little, plan smarter next time.

TakeOff AI by ActorTonyB Travel · travelwithactortonyb.com
